

e-Conference on Science, Engineering and Environment in the COVID-era

26-27 | Nov | 2020

The Korean Scientists and Engineers Association in Australasia (KASEA) aims to promote scientific and technological collaboration between Australia, New Zealand and Korea.

KASEA is hosting an e-Conference on Science, Engineering and Environment in the COVID-era. This will provide a forum for the exchange of ideas on and the implications of recent science, engineering, and environment studies. We aim to address the impact of the COVID pandemic on social, educational and environmental sustainability.

Korean Academy of Scientists and Engineers in Australasia

Program

DAY 1

- Opening and welcome speech
- Keynote speech
- KASEA Council meeting 2020
- Postgraduate student pitching competition

Keynote Speakers

Distinguished Emeritus Prof Colin Binns: 'COVID-19 Research and Implications for Public Health'

<https://staffportal.curtin.edu.au/staff/profile/view/C.Binns/>

Dr Jiney Jose: 'Drug repurposing for treatment of SARS-COV2'

<https://unidirectory.auckland.ac.nz/profile/j-jose>

Special Sessions

BIO-SCIENCES

- Biotechnology
- Biomedical Science
- Agricultural Bioscience

BUILT ENVIRONMENT

- City Planning
- Civil Engineering
- Housing Market

ENERGY

- Hydrogen technology
