2020 WA Report

It has been a challenging year for all academics having to work at home and deliver all lectures online due to the COVID pandemic. However, WA has been fortunate with no local transmission for more than six months due to having the border closed early. This meant our members could meet in July and hold the annual seminar face-to-face.

In summary, the WA branch has approximately 25 members (about half are postgraduate students). Members are meeting regularly in small clusters (UWA and Murdoch) during the study periods. The committee members work well together supporting the activities of KASEA WA.
